Professional Summary

Computer Science student with a strong passion for mobile application development using Flutter. Experienced 1+ year in building cross-platform applications with clean UI , focus on MVVM Architecture and efficient backend integration using Firebase.Hands-on experience in state management (BLoC, Cubit, Provider), RESTful APIs, Solid understanding of programming fundamentals, problem solving, Fast learner with strong communication and leadership skills, seeking to contribute to real-world projects and grow as a professional mobile developer.

Education

Bachelor's Degree in Computer Science

2023 – Present

Faculty of Science, Tanta University

GPA: 3.23 (Very Good)

Training & Experience

Code Plus

Jul 2026 – Present

Flutter Intern

- Collaborated in developing **Animoo**, a Flutter-based mobile application, within a team environment.
- Built responsive user interfaces and reusable Flutter widgets to enhance application usability.
- Connected the application to RESTful APIs powered by a PHP backend and managed application state using BLoC.
- Maintained source code using Git & GitHub while following clean code and Flutter development best practices.

DEPI (Digital Egypt Pioneers Initiative)

Jul 2026 – Present

Cross Platform Mobile App Developer Trainee

- Participating in an intensive training program focused on Flutter and Dart for cross-platform mobile application development.
- Building responsive mobile applications using Flutter with Firebase integration and REST APIs.
- Applying state management (BLoC, Provider), Git & GitHub, and software development best practices.
- Gaining practical experience in UI/UX principles, unit testing, mobile deployment, and Capstone project development.

ITI (Information Technology Institute)

Aug 2025 – Sep 2025

Mobile Application Development Track

- Developed Flutter applications using Firebase Authentication, Firestore, and REST APIs while applying responsive UI design principles.
- Built multiple mobile applications with responsive UI and real-time data handling.
- Integrated Firebase services including Authentication and Firestore.
- Applied best practices in UI/UX design and clean code architecture.

NTI (National Telecommunication Institute)

Jul 2025 – Sep 2025

Mobile App Development using Flutter

- Learned fundamentals of cross-platform mobile development.
- Developed applications using Dart and Flutter framework.
- Worked on state management and API integration.

Projects

Flutter E-commerce App Technologies: Flutter, Firebase

- Developed a full-featured e-commerce mobile application.
- Implemented user authentication and real-time database using Firebase.
- Designed clean and responsive UI for better user experience.

Task Management App (Tasky)Technologies: Flutter, SharedPreferences

- Built a task management application with Provider .
- Used SharedPreferences for storing user data.
- Focused on performance and usability.

Chat Application (Chaty) Technologies: Flutter, Firebase

- Developed a real-time chat application using Firebase.
- Implemented messaging system with instant updates.
- Handled user authentication and session management.

Movie App (MooVy)

- Built a Movies App using Flutter & Dart, integrated with the TMDB REST API to fetch real-time movie data.
- Implemented MVVM Architecture separating UI, business logic, and data layers using ValueNotifier for state management.
- Added Infinite Scroll Pagination, Hero Animations, Dynamic Genre Tags, and a Favorites system.
- Persisted user preferences (Dark/Light Mode) locally using SharedPreferences.
- Repository Of App
- Download APK

Technical Skills

- **Languages:** Dart, C++, SQL
- **Frameworks:** Flutter
- **State Management:** Provider, BLoC (Cubit)
- **Backend:** Firebase Authentication, Cloud Firestore
- **Storage:** Hive, SQLite, Shared Preferences
- **Networking:** REST APIs, Dio, HTTP
- **Tools:** Git, GitHub, Android Studio, VS Code
- **Concepts:** OOP, Data Structures, Problem Solving, Responsive UI, Clean Architecture (Basics)

Soft Skills

Fast Learning, Problem Solving, Communication, Leadership, Teamwork, Time Management

Relevant Coursework

Data Structures, Object-Oriented Programming, Database Systems, Software Engineering, Mobile App Development

Languages

Arabic (Native), **English** (Very Good / Professional Working Proficiency)
